

Petition: Help Bring a Medical/ Recreational Cannabis Store to Kingston!

<http://www.thepetitionsite.com/630/851/035/help-bring-a-recreational-cannabis-store-to-kingston/>

Please sign this petition imploring the Kitsap County Commissioners Office to rezone George's Corner (the intersection of Miller Bay Rd and St Hywy 104)! Help stimulate growth in the Kingston area by increasing the possibilities for commercial and industrial development at Kingston Crossing! We will be one of only a few select recreational stores that will have a medical marijuana endorsement, allowing us to cater to medical patients after the state shutdown of unlicensed dispensaries in July. Help promote access to safe, sanctioned recreational and medical marijuana to Kitsap County residents!

By signing this petition you agree:

1. That you support having a recreational marijuana store in Kingston, WA
2. That the Kitsap County Commissioners Office should move quickly to provide the necessary additions to the Comprehensive Plan allowing for a recreational store at George's Corner soon enough to benefit the medical community who are losing their cannabis source in July.

Thank you!

Testimonials:

“I myself have never used cannabis but I do believe it is a safe alternative to many unsafe pharmaceuticals. I see no reason why it can't be located at the same intersection where there are already two pharmacies. Obviously the people here need medications. Why not a safer alternative?”

“I am an older medical patient, and I absolutely want a closer store to purchase medical lotions and tinctures.”

“My husband has PTSD and seizures. We absolutely need this. The meds he is required to take if not on cannabis, to prevent the seizures, render him unable to work. He is the sole provider for our family. Cannabis allows him to function as a normal person.”

“I don't have anything particularly original to say, but it is completely obvious that this rezoning will increase revenue. Everyone wants a local shop- provide it for them! More money for the town and small businesses is the worst thing that will happen, so just do it!”

“I have Lupus, Rheumatoid arthritis, severe degenerative disc disease and severe osteoporosis. A measured mix with a much higher CBD to THC ratio works better than any other medication I can take, including opioids. Having a medical dispensary close to my home would be a lifesaver. Please, please consider this!”

“For those of us who need the much lower THC mixes only provided by the dispensaries (this allows us to get the relief we need without the buzz we don't) one located closer than Bainbridge would be a huge benefit. Please consider signing this petition there are so many of us out there that would much prefer mostly CBD oil over toxic opioids and without the medical dispensaries that choice is going away”
